SERVICE!!

Editor The Times-Dispatch:

I desire to thank you in the name of the baseball lovers of Richmond for furnishing the splendid service by your electric scoreboard during the World's Series.

The service was great, and thousands appreciate what The Times-Dispatch did, not only in giving the plays to a minute, but in having Gus Malbert, its Sporting Editor, report the games. These things brought the games close home to the Richmond fans.

Wants Game Eliminated From Academy.

Washington, October 12.-Elimination of football from West Point athletics is advocated in the annual re-port of Colonel Townsley, superintendent of the West Point Military Academy, made public here to-day,

Colonel Townsley states that 75 per cent of the men needing the attention of surgeons at West Point last year were injured in football games. This, he asserts, is no adequate compensation for the physical training resulting from participation in the pastime. Colonel Townsley also recommended elimination of the appointment system of choosing candidates for West Point. He advised a competitive examination open to the youth of the nation, and enrollment at West Point to its capacity till the percentage of offices in the army who have received West Point training shall have been increased.
